

Earthquake Advisory

Date Issued: 08 April 2017

Time: 8:30 PM

This is to inform the public that **two moderately sized earthquakes** with **magnitudes 5.6** and **6.0** occurred in **Mabini, Batangas** on 08 April 2017 at 3:07 PM and 3:09 PM respectively. The said events were reportedly felt in Mabini, Batangas at PHIVOLCS Earthquake Intensity Scale (PEIS) VII (Destructive) and were felt as far as San Fernando, Pampanga in the north at PEIS II (Slightly Felt) and Daet, Camarines Norte in the south at PEIS III (Weak). Furthermore, **no threat of destructive tsunami waves** is expected because the magnitude range of these events is not enough.

People are advised to stay calm and be alert. In case of another felt earthquake, do the *“duck/drop, cover and hold”* and move to a safe area after the shaking.
