GENERAL SERVICE GUIDELINES

Service Hours

Regular service hour is from 8:00 AM to 5:00 PM, Monday to Friday. However, because PHIVOLCS also implements a flexible time schedule, some sections can transact business as early as 7:00 AM. Our employees will continue businesses with clients already transacting during break-time.

Visitors entering PHIVOLCS building are required to sign in at the Front Lobby Guard and leave an ID. The visitor will be provided with temporary Visitor's ID to be worn at all times while inside the building, and a Visitor's Slip to be signed by the person visited and surrendered to the guard upon leaving PHIVOLCS premises.

1. Mandates

- Predict the occurrence of volcanic eruptions and earthquakes and their related Geotectonic phenomena
- Determine how eruptions and earthquakes shall occur and also areas likely to be affected. Generate sufficient data for forecasting volcanic eruptions and earthquakes
- Mitigate hazards of volcanic activities through appropriate detection, forecast and warning system
- Formulate appropriate disaster preparedness plans

2. Vision

A leading global science and technology institution of empowered men and women helping develop communities safe from and resilient to volcanic eruptions, earthquakes, tsunamis and other related hazards.

3. Mission

We provide timely, quality and socially-inclusive information and services for warning, disaster preparedness and mitigation. This we do through the development and application of technologies for the monitoring and accurate prediction of, and determination of areas prone to, volcanic eruptions, earthquakes, tsunamis and other related hazards, and gender-responsive capacity enhancement for comprehensive disaster risk reduction.

4. Service Pledge

We commit to

- promote the implementation of simplified requirements and procedures that will reduce red tape and expedite transactions in PHIVOLCS;
- attend to all applicants or requesting parties who are within the premises of the Institute prior to the end of official working hours and during lunch break.

5. List of Services

Service	Page Number
Geology and Geophysics Research and Development Division	5
External Services	5
1. Hazards Assessment Service: Earthquake and Volcanic Hazard Assessment Report	6
2. Geology- and Geomatics-related Information Package	19
Geologic Disaster Awareness and Preparedness Division	23

15. Request for Procurement of Goods and Services, Infrastructure and Consulting Services	86
16. Network Maintenance	89

**Geology and Geophysics
Research and Development
Division (GGRDD)
External Services**

1. Hazards Assessment Service: Earthquake and Volcanic Hazards Assessment Report

The DOST-PHIVOLCS' Hazard Assessment Service (HAS) is one of PHIVOLCS' frontline services that determines if any earthquake and/or volcanic hazard is present in a particular parcel of land of interest to a stakeholder, the result of which is contained in a Hazard Assessment Report (HAR).

Hazard Assessment Report (HAR) – is a document that contains the hazard assessment for a particular parcel of land of interest to a stakeholder. The HAR by itself is NOT an approval, endorsement or authorization for further government procedure.

Simple Transactions – pertain to one or two site requests for single or multiple hazards where assessment may proceed based on currently available and acceptable hazards information.

Complex Transactions – pertain to three to four site requests for single hazard or multiple hazards provided that hazard data or information necessary for assessment are readily available. They can be also be one to two site requests for multiple hazards provided one to two hazards require further analysis

Highly Technical Transactions – pertain to three or more site requests for multiple hazards with two or more hazards that require detailed analysis

Office or Division:	Geology and Geophysics Research and Development Division (GGRDD)	
Classification:	Simple, Complex to Highly Technical	
Type of Transaction:	G2C - Government to Citizen; G2G – Government to Government; G2B – Government to Business	
Who may avail:	All	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
If acquiring auto-generated Hazard Assessment Reports and Summary Hazard Assessments		
1. Computer or a mobile device with access to the internet.	Requesting Party	
If acquiring Hazard Assessment Report for submission to institutions		
1. Computer or a mobile device with access to the internet.	Requesting Party	
2. Digital copy of vicinity map showing the parcel boundary of the land area on Google Earth map or imagery or geographical information of the area.	Requesting Party	
3. Transfer Certificate of Title (TCT) or Tax Declaration of the lot, if applicable. Ensure readable TCT details like lot.	Requesting Party, Land Registration Authority/Registry of Deeds or Local Government Unit/Assessor's Office.	

DOST-PHIVOLCS

.number and block number as these will appear in the Hazard Assessment Report. If TCT is not available, Tax Declaration may suffice. If neither TCT nor Tax Declaration is available, fill out address to be indicated in the Hazard Assessment Report.				
4. Online Hazard Assessment Service Form <i>All documents submitted to PHIVOLCS shall be part of PHIVOLCS records and will not be available to the public to ensure privacy. These will not be returned to the client.</i>		Online Hazard Assessment Service (OHAS) Portal (https://has.phivolcs.dost.gov.ph)		
5. Online Hazard Assessment Service Satisfaction Survey Form.		Online Hazard Assessment Service (OHAS) Portal (https://has.phivolcs.dost.gov.ph)		
*CLIENT STEPS	AGENCY ACTIONS	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE
<i>If acquiring hazards assessment and reports for reference purposes</i>				
1. Visit HazardHunterPH at https://hazardhunter.georisk.gov.ph (for site-specific assessment) or GeoAnalyticsPH at https://geoanalytics.georisk.gov.ph (for LGU-wide assessment).	1. Site security and maintenance.	None	1 minute, based on system response time	Information Technology Officer II/ of the Geomatics and Hazards Assessment Services Section
2. Generate assessment report.	2. Quality assurance and database maintenance.		5 minutes, based on system response time	
3. Fill out the Feedback Form in either HazardHunterPH and/or GeoAnalyticsPH.	3. Maintenance of feedback forms.		5 minutes	
<i>If acquiring Signed Hazard Assessment Reports</i>				

Simple Transactions				
1. Access PHIVOLCS OHAS at https://has.phivolcs.dost.gov.ph	1. Site security and maintenance		1 minute	Information Technology Officer II/ of the Geomatics and Hazards Assessment Services Section
2. Submit Online Hazard Assessment Request Form with necessary requirements. *Client receives tracking number and confirmation through email that the request is being processed.	2. Frontline staff reviews filled out form and document attachments.		30 minutes	Science Research Analyst, Science Research Assistant, Science Aide of the Geomatics and Hazards Assessment Services Section
	2.1 Frontline forwards to Officer-of-the-Day.		2 minutes	
	2.2 Officer-of-the-Day conducts hazards assessment using Hazard Hunter PH functionality in OHAS Admin Portal or PHIVOLCS online and local GIS applications (this includes editing and syncing geodatabases, generating and uploading of HAM).		7 hours / within the day of receipt	Science Research Specialist II, Science Research Specialist I of GGRDD
	2.3 Officer-of-the-Day drafts Hazard		10 minutes	Information Technology Officer I / Science

	TOTAL	Individual private property owners: Php 100.00/ per HAR Private companies: Php 500.00 per HAR Free for those covered by applicable Government Issuances	Nineteen (19) working days, 1 hr, 49 minutes (~20 working days) Note: That all documents /information submitted are complete/correct	

**Transacting client should observe the minimum health protocols adopted by PHIVOLCS in view of the COVID-19 pandemic.*

2. Geology- and Geomatics-related Information package

Hazard Information Package – any set of information products pertaining to earthquake- and volcano-related processes generated and produced by the Geology and Geophysics Research and Development Division (GGRDD), and which can be provided in the form of printed or digital maps, reports, or explained in letters and face-to-face consultation, among others.

Web Map Service (WMS) – a standard protocol developed by the Open Geospatial Consortium in 1999 for serving geo-referenced map images over the Internet, providing a simple Hyper Text Transmission Protocol (HTTP) for requesting geo-referenced map images (JPEG, PNG, etc.) from one or more distributed geospatial databases.

Web Feature Service (WFS) – an interface specified by the Open GIS Consortium (OGC) that allows for the exchange of geographic data across the Web. Through this interface, data manipulation may be done on the geographic features in local computers.

Data User Agreement (DUA) – a document, signed between PHIVOLCS and its government stakeholders, stating an agreement on data exchange and usage. DUA may be signed between the Director of PHIVOLCS or his representative and the head of office or Planning/GIS/IT Officer of government agencies requesting GIS products. It ensures that PHIVOLCS hazards information is properly handled by its stakeholders.

Memorandum of Understanding (MOU) – a document, signed between PHIVOLCS and its non-government stakeholders, stating an agreement on data exchange and usage. MOU is signed between the director of PHIVOLCS and the head of its non-government stakeholders, and other similar offices requesting GIS products. It ensures that PHIVOLCS hazards information is properly handled by its stakeholders.

External Services

3. Outside Lecture Package

DOST-PHIVOLCS provides a lecture package to various stakeholders that includes resource person(s) either as lecturer, facilitator, and observer to requesting organizations. Standard lecture packages cover basic information on volcanoes, earthquakes, tsunami and other related geotectonic phenomena. Also, specialized topics related to Geosciences and Disaster Risk Reduction could be included in the lecture package upon request. Facilitators or observers could be requested to give technical inputs during exercises or drills for volcano, earthquake or tsunami evacuation, subject to availability of personnel.

Office or Division:	Geologic Disaster Awareness and Preparedness Division (GDAPD)	
Classification:	Simple	
Type of Transaction:	G2C - Government to Citizen; G2G – Government to Government; G2B – Government to Business	
Who may avail:	All	
CHECKLIST OF REQUIREMENTS	WHERE TO SECURE	
1. Computer or mobile device with access to the internet.	Requesting Party	
2. Letter of request is required. Address all letters to DR. TERESITO C. BACOLCOL , Director, PHIVOLCS. Please state the following: <ul style="list-style-type: none"> • topic • number and type of participants • place, date and time of lecture • contact landline/mobile number(s) • contact person of requesting organization 	2 nd Floor, Room 202, Geologic Disaster Awareness and Preparedness Division (GDAPD)	
3. For outside Metro Manila that requires Travel Order, requests must be submitted 20 working days before the scheduled activity for preparation and processing of travel documents. <p>3.1 Requestee should provide:</p> <ul style="list-style-type: none"> • Transportation of resource person from and back to DOST-PHIVOLCS Office • Computer and LED/LCD projector for presentation purposes e.g. PowerPoint • Meal and accommodation if outside Metro Manila and requiring overnight stay. 		

*CLIENT STEPS	AGENCY ACTIONS	FEEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE
For online request				
1. Access the Request Form for Outside Lecture Packages: https://bit.ly/request-lecture	1. GDAPD staff receives and sends acknowledgement of request.	None, incidental travel expenses if incurred by Resource Speaker	1 Minute	Science Research Specialist/ Science Research Analyst/ Assistant of DRR R&D Section
2. Submit the online request form with necessary requirements. * Client receives the acknowledgement receipt.	2. GDAPD staff reviews the accomplished online request form and the document attached. 2.1 Forwards letter of request to Division Chief for approval Specific request or invitation for Dr. Teresito C. Bacolcol as resource should be forwarded to the Office of the Director.		2 Minutes 2 Minutes	
3. Coordinate with DOST-PHIVOLCS for final logistical arrangement e.g. service vehicle, online platform.	3. GDAPD staff will confirm the request including the logistical arrangement (date, resource person, venue, time) 3.1 Forward to the requisitioner the link		1.5 working days including the assignment of resource person	

<p>4. Fill-out and submit the Client Satisfaction Feedback (CSF) form</p>	<p>https://bit.ly/CoordinatorCSF for Client Satisfaction Feedback (CSF) form for Coordinator.</p> <p>4. 4. Information Packages: Information Materials

Information materials are in the form of flyers, pamphlets, leaflets, posters, comics, brochures, and scientific papers or proceedings which are available in either print or digital format. These materials contain general information on Philippine volcanoes, earthquakes, tsunamis and other related geotectonic processes, their threats and how the effects from these hazards can be reduced or avoided. Most print materials are free of charge except for some special publications.

Office or Division:	Geologic Disaster Awareness and Preparedness Division (GDAPD)	
Classification:	Simple	
Type of Transaction:	G2C - Government to Citizen; G2G – Government to Government; G2B – Government to Business

7. Information Package: Exhibit and Earthquake Simulator with Facilitator Package

One of the strategies of DOST-PHIVOLCS to disseminate information related to its mandate is through exhibit packages. These exhibit packages mainly contain information about earthquakes, tsunami and a volcano that will help to mitigate geologic hazards. DOST-PHIVOLCS main office and some of its field stations have exhibit displays to raise awareness and preparedness to its stakeholders. The exhibits are composed of posters, 3D models, and other available interactive display of the Institute. Also, a mobile earthquake simulator is one of the exhibit features to provide experiential learning to the users' particularly who have not yet experienced an earthquake and teach them how to protect themselves during ground shaking.

DOST-PHIVOLCS may also provide technical assistance in the design of exhibit and assign a resource person to discuss the content of the exhibit.

8. Hazard Maps (Probabilistic, deterministic and seismicity map

Probabilistic Ground Shaking Hazard Map – is a map that depicts the associated earthquake ground motion (in units of g; g = acceleration of gravity) for a probability level which are applied in seismic provisions of building codes, insurance rates, risk assessment and other public policy.

Deterministic Ground Shaking Hazard Map – is a map that depicts the associated earthquake ground shaking hazard (in intensity or in units of g; g = acceleration of gravity) as modeled using knowledge of the physical process of earthquake generation, level of seismic activity and wave propagation in the specified area.

Seismicity Map - plots catalogue of earthquake epicenters as circles on a specified map, with varying size and color indicating magnitude and depth accordingly; catalogue will only cover available data in a specified time period and area in the Philippines.

9. Catalogue: Earthquake Data

Waveform Data—is a graphical representation of an earthquake signal as recorded by a seismograph or an accelerograph installed in any of the earthquake monitoring stations operated by PHIVOLCS. Digital data are provided raw, which means that it has received no processing that involves any hypothesis as to the nature of the earthquake and the character or frequency content of the ground motion or recording instruments.

Earthquake Catalogue - is a list or tabulation of earthquake data, typically compiled or grouped together because they share a common type, origin, means of detection, or method of discovery. The Official PHIVOLCS Earthquake Catalogue consists of basic parameters (date/time, latitude and longitude of epicenter, depth, magnitude, and reported intensities, if any) of earthquake events that have been recorded and processed by the seismic monitoring system in the Philippines. While we endeavor to keep the content up-to-date and correct, PHIVOLCS makes no representations or warranties of any kind, express or limited, about the completeness, accuracy, reliability, suitability or availability with respect to the existing catalogue, for any purpose.

10. Certification of Earthquake Occurrence

Certification of Earthquake Occurrence – states whether an earthquake event has occurred in a specified area at a specific date. This certification reflects available information in the records maintained by the Seismic and Tsunami Data Management Section. This includes the date, time, location, depth, magnitude and reported intensities of the earthquake event; the recent intensity ratings are as described in the PHIVOLCS Earthquake Intensity Scale (PEIS). Description of the highest reported intensity is also included in the certification. While we endeavor to keep the content up-to-date and correct, PHIVOLCS makes no representations or warranties of any kind, express or limited, about the completeness, accuracy, reliability, suitability or availability with respect to the existing catalogue for any purpose.

Prediction Division (VMEPD)**

External Services

11. Catalogue: Volcano Data

Volcanological data refer to geophysical, geodetic, and geochemical data generated by the Volcano Monitoring and Eruption Prediction Division (VMEPD) using different volcano monitoring techniques. The data is usually collected regularly, especially during volcanic unrest and eruption.

Geophysical data available for request includes volcanic earthquake daily count and located earthquakes. The available geophysical data can be downloaded in PHIVOLCS-LAVA public portal at <https://wovodat.phivolcs.dost.gov.ph>, for the years 2000-2016 for some volcanoes. Only data that is not available on the public portal can be requested.

Geodetic data available for request includes processed data from geodetic systems such as Global Positioning System (GPS) particularly the baseline measurements, Precise Leveling, Electronic Distance Measurement (EDM), and Electronic tiltmeter. The available geodetic data can be downloaded in PHIVOLCS-LAVA public portal at <https://wovodat.phivolcs.dost.gov.ph>, for the years 2000-2016 for some volcanoes. Only data that is not available on the public portal can be requested.

Geochemical data available for request includes measurements of volcanic gases such as sulfur dioxide flux, carbon dioxide flux, and some other volcanic gases; and water data either directly sampled or analyzed in the laboratory. The available geochemical data can be downloaded in PHIVOLCS-LAVA public portal at <https://wovodat.phivolcs.dost.gov.ph>, for the years 2000-2016 for some volcanoes. Only data that is not available on the public portal can be requested.

Note:

Client may also check for available free data at <https://wovodat.phivolcs.dost.gov.ph> and may skip the steps below if the desired data is available.

12. Certification: Volcano Status, Others

Is a document that contains information on a volcano's condition as well as DOST-PHIVOLCS recommendations for specific locations close to the volcano in specific period (i.e., during eruption or when the volcano is in high level alert). Uses include supporting suspension documents, serving as a reference for any incident that happened during the time that the evacuation was ordered, and other related.

13. Request for Vehicle

PHIVOLCS as an agency mandated to monitor earthquake occurrences and volcanoes activity has an extensive vehicle requirement. In order to lessen the number of hours to determine availability of vehicles, the Finance and Administrative Division entered into an agreement with the DOST-ASTI to have a system which includes monitoring of vehicles availability under the PHIVOLCS Administrative System. Under this system, PHIVOLCS staff can reserved their vehicles requirement for fieldwork. It is paperless and trip ticket can be generated after the online approval.
